

2013 Deer Trustee Report

Public Action Team Implementation Proposal

1 of 1

Action Team: Herd Health/CWD	Chronic Wasting Disease D.7
<input type="checkbox"/> Draft <input checked="" type="checkbox"/> Submitted	Deer Trustee Report Page 57

This document shows the original Deer Trustee Report recommendation that the Public Action Team considered when developing proposals for implementing the recommendation in Wisconsin. The Public Action Team's implementation proposal is presented then followed by additional background information.

I. ORIGINAL DEER TRUSTEE REPORT RECOMMENDATION

D.7. An annual meeting of DMAP cooperators would be an excellent venue for reporting on various aspects of CWD, in addition to the topics discussed earlier. This would greatly enhance public awareness and WDNR credibility.

II. PUBLIC ACTION TEAM PROPOSAL FOR IMPLEMENTING THE ABOVE RECOMMENDATION

Below is the Public Action Team implementation proposal along with their rationale and supporting evidence, potential implementation obstacles and consideration of the proposal's potential impact on the overall deer management in Wisconsin.

1. Action Team Implementation Proposal:

- We support this recommendation that CWD consistently be included in any annual DMAP meetings but we do not support or reject the DMAP concept. We support that additional to the DMAP annual meeting, there should be other forums in which stakeholders have an opportunity to get updated CWD information and provide input on CWD management.

2. Supporting data, references, rationale and other information behind it.

- None listed by the Team.

3. Consider and describe potential implementation obstacles or drawbacks.

- No comments submitted by the Team.

4. Overall, how will this proposal simplify or complicate deer hunting, management, or research in Wisconsin.

- No comments submitted by the Team.
